

Hand-Held Megaphone: ME-HHM

DESCRIPTION:

Megaphones are widely used where there is a likelihood of large crowds or gatherings such as schools and worksites. This megaphone is made from rugged ABS plastic and has an integrated anti-howl microphone. It allows the Fire Marshall to single-handedly give amplified instructions from any area of the building or site. It features a press-to-talk trigger, and incorporates a siren for emergency situations.

FEATURES:

Diameter (inches)	9.1
Length (inches)	14.6
Maximum output	25W
Battery operated	C batteries x 8
Power duration	Approx. 5 hours
Effective distance	Approx. 1500m
Construction	Rugged ABS plastic
